And now a few words from me:

Hi, I'm Bear! I'm a cute and very energetic fellow! I love to take long walks, jump through the snow, chase sticks and socialize with other dogs. I also like lots of cuddles from my humans. In fact, I want to be with people all the time as I struggle with separation anxiety. If it were up to me, I'd follow you everywhere! The good news is that I love car rides and ice cream outings! Are you up for adventure?

And now a few words from my foster family:

Bear is a very sweet boy; he's loyal and affectionate. He suffers from separation anxiety. We have been working on this by leaving him in the company of his foster brother and sister for short periods of time. Being with other dogs reassures him, and we feel that he would benefit from having a calm brother or sister from whom he can learn and with whom he can play. Bear's new owners will need to be patient with him and continue to slowly increase the amount of time he is left alone. Bear responds very well to positive reinforcement training and needs a handler that will continue to work with him on obedience training and provide the structure he needs to become a well-balanced dog. He is still quite young and very playful and wins the hearts of everyone he meets!
