Housetraining:	Fully trained		
Crate Trained:	Does not care for it.		
Suitable for an Apartment:	No; barks loudly		
Origin:	Owner surrender	Adoption Fee:	\$450

**And now a few words from me:**

Hi! I'm Otis! I'm a friendly guy who likes to cuddle. I love going for walks, playing with toys, and enjoy anything to do with food, especially when treats are involved. I especially like sitting at the back door watching the squirrels and birds. And like any good Dachshund, I let the humans know when I see one! I don't like sleeping in a crate, but I will sleep on my bed on the floor (although I would prefer to cuddle with my human). I get along with my foster fur brothers but find a need to get away from the puppy... he gets on my nerves sometimes. So that's me... want to meet?

**And now a few words from my foster family:**

Otis is a sweet little man who is in great shape for his age. He really enjoys going for walks and loves to cuddle. He likes to burrow with blankets to stay warm, usually when the sun is not available. He likes to sniff, chase squirrels and play in our fenced yard. Otis gets along well with our older dog, but is less tolerant of our puppy and his puppy energy. He is fully housetrained and has not had any accidents while in foster care. When he needs to go out, he will ask for the door. He has a bit of separation anxiety and will whine when you leave, although I believe the anxiety has more to do with being penned and less to do with the actual separation.

**Medical History** of Pancreatitis, on low fat diet from vet clinic.
